Dear Young Minds,

Computer Engineering is a rapidly evolving field that addresses the ever-changing needs of our digital age, and its popularity continues to grow with each passing day. We will embark on a journey of discovery together, exploring the latest advancements in programming languages, software design, and hardware. Since its establishment in 2019, our department has continuously expanded its esteemed academic staff with experts in their respective fields.

As the global demand for qualified computer engineers is projected to remain strong for many years to come, our department is committed to nurturing engineers equipped with the most up-to-date knowledge sought after on national and international platforms. In this regard, we will be by your side every step of the way, providing unwavering support as you progress through a comprehensive curriculum that aligns with contemporary requirements in the field of information technologies, addresses current needs, and empowers you to actively participate in the design and development of future technologies.

I wish you a fulfilling, healthy, and peaceful university life filled with success beyond your dreams.

With warmest regards and love,

Associate Professor Deniz Üstün

Head of Department
