

Dear Students,

Technology is advancing at an unprecedented pace in our era, and computers play a pivotal role in driving these advancements. Their applications span a vast spectrum, from robotics and communication systems to smart machines, automation, automotive, and biomedical fields. Businesses are fiercely competing to acquire skilled technicians, as successful technicians can easily find employment both nationally and internationally and reach prominent positions.

The Computer Technology Department at Tarsus University Vocational School is committed to providing high-quality education through its experienced and qualified faculty. We aim to cultivate technicians who are abreast of technological advancements in their field, strive to be part of or even lead change, possess strong analytical problem-solving skills, can work independently as well as collaborate effectively within teams, and uphold professional ethical values.

We would be honored to have you join us on this journey at the Computer Technology Department at Tarsus University Vocational School.

Welcome to our department!

With love and respect,

Professor Emel Bahar

Head of Department
